

Riya Shah

Graduate Software Developer | Ahmedabad, Gujarat | riya.shah@example.com | +91-90000-00000

PROFESSIONAL SUMMARY

Computer applications student with foundational Java programming and database knowledge. Completed academic web projects and is learning backend development. Has used Git and GitHub for coursework; limited experience building production-style REST APIs and no hands-on Docker or AWS deployment experience.

TECHNICAL SKILLS

Java, SQL, MySQL, Git, GitHub, HTML, CSS, JavaScript, OOP, DBMS, basic Spring Boot

PROJECTS

Library Management System

Created a basic Java and MySQL application to manage books, users, issue records, and returns. Implemented CRUD operations and tested common workflows.

College Event Website

Developed a simple responsive website using HTML, CSS, and JavaScript. Stored project code in GitHub and collaborated with classmates.

EDUCATION

BCA / B.Sc. in Computer Science (fictional sample), expected 2027; coursework includes OOP, DBMS, and web development.

EXPERIENCE

Academic projects only; no professional software engineering experience claimed.

CERTIFICATIONS

Introductory Java course (sample placeholder).
